General Information

The Jay is a small family run farm in a peaceful and beautiful environment. It has six acres of pasture surrounding a 1.5acre pool fed from natural springs. It has abundant plant, insect and animal life and is the perfect place to spend a few hours or even a few days fishing or simply enjoying the surrounding area with its many attractions. There is a great deal to see on walks starting from the farm.

The fishery also has 'access for all' facilities including hardstanding parking and a pathway to the pool. Further stone pathways link 4 safe fishing platforms specifically designed for wheelchair use. The pathways offer year-round access to the fishing areas of the pool and a smooth surface to aid mobility.

Known Species

The Fly Fishery opened in 2012 and has been quite successful to date producing good catches of stocked rainbows to 5lb and a few wild brown trout with one fish at 11lb.
